

FN | NR
NightinGala
OCTOBER 26, 2022

Location:

Ronald Reagan Building and International Trade Center
1300 Pennsylvania Avenue NW, Washington, DC 20004

Please enter through the entrance on 14th Street; there is a fountain in front of this entrance.

Security Information:

The Ronald Reagan Building and International Trade Center is the second largest federal building in the country. Upon entering the NightinGala you will be required to go through a security checkpoint. We expect a quick and seamless security process but please allow 15-20 minutes of wait time to clear security. We encourage people to “travel light” to the Gala; this will help you to clear security more quickly (i.e., jackets already off, belts off, smaller handbags, etc.) We will have a coat check available onsite.

Parking:

Public parking is available in the underground parking lot with entrances at 13 1/2 Street off Pennsylvania Avenue and two entrances on 14th Street. The parking garage is open 24 hours. Please find more information on the [public parking garage](#), it's the largest in the city.

Metro Information:

The Federal Triangle Metro Station (orange/blue/silver lines) is located on-site and is connected to the building by a covered passageway. The Metro Center Metro Station (red line) is located just two blocks away.
